

Intelligent Tutoring System for Java Programming - variant 1 (Progress Slides, meeting 5)

Miruna Pirvulescu

A large red speech bubble with a white outline, pointing downwards. It contains the text "Since our last meeting" in white. The background of the slide features faint, curved, concentric lines in the top-left and bottom-right corners.

Since our last
meeting

■ **Goals until today:**

- ☐ Finish the implementation of the software,
- ☐ Have a strong draft for the final report,
- ☐ Test the project.

Current Barriers

- Testing is going slower than expected: I need a group of end users to evaluate their learning process (currently 14 evaluations in day 1 and 0 new in the following days).
- Structuring the report: being the first time when I am exposed to such a major piece of work, writing the report is not an easy task and the structure can be at time confusing.
- Video demo: it is a little unclear at this moment how to film it, but it should not take long to figure it out.

Next Steps

- Until the end:
 - ☐ Finish the final report,
 - ☐ Gather more evaluations from testers,
 - ☐ Film the video presentation,
 - ☐ Submit everything before the deadline.
